REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING SEPTEMBER 15TH, 1853.

REMARKS.-It will be seen from our review below, and our table of prices, that nearly all kinds of produce, and particularly provisions of various descriptions, have materially advanced in price during the past week. The rise in breadstuffs has evidently been caused by a corresponding advance in other markets, created by the late European news of the unfavorable accounts of the crops in that country. Turpentine has also gone up still higher. We have taken considerable pains in having our reports correct, and we hope we have succeeded in this matter as near as possible. TURPENTINE-The receipts of Turpentine this week have

been light, reaching only about 3,987 barrels. The market ruled steady at last Thursday's quotation up to Wednesday last, when an advance of 15 cents was obtained. The arti-Schr. Agnes H. Ward, Watts, for New River, by Rankin | cle has been in good demand throughout the week, and the sales foot up some 3,687 bbls., as follows: Virgin and Yellow dip. Thursday 1,500 \$3 75 Friday 187..... Saturday 160 ****

This morning there are some 2@300 bbls. offered, which is held at \$4, but not sold at the time of closing our review. There seems to be a fair demand from shippers and distillers at yesterday's prices.

SPIRITS TURPENTINE .- The market this week has been rather quiet, and the transactions light, reaching only 624 bbls, as follows: On Thursday, 150 bbls, at 55, and 44 do absence of which buyers are unwilling to operate; the depression in the New York market also having a tendency to keep the market inactive here. The receipts are moderate and there is a fair stock on market; holders generally are asking 56 cents and upwards.

Rosin-There has been nothing doing in Common Rosin since our last review that we can hear of, and the stock on market is heavy. The article is very dull, and in the absence of sales we are unable to give a fair quotation. In No. 1 we note sales on Thursday and Friday of 450 bbls. at \$2 50, \$3@ \$3 50 W bbl.; and several small parcels have changed hands at \$1 75, \$2 12½ @ \$3 \$2 bbl., as in quantity.

TAR—Has declined since last review some 30 cents \$2 bbl., and sales have been made of 303 bbls., at \$2 80, \$2 75 @ \$2 50 \$\varphi\$ bbl., closing at latter figure, and rather dull of sale. COFFEE.-The supply of Coffee is moderate, and generally

sells from store at prices varying as to quality and quantity.

Quotations have recently advanced, and we raise our figures 1@2 cents 2 1b. See table. CORN MEAL. - The supply is about fair, and sales from store, to retailers, at 75@80 cents 2 bushel.
